Course Objectives:
The course invites students to explore and better understand the economic and political ideas and functions of the so-called existing socialism in the 20th century. Economic concepts played important role at many stages of communist history, ranging from the utopia of war communism, through Stalinist political economy, all the way to the doctrines of workers’ self-management and market socialism. The subject of the course is the slow and paradox learning process which ended with the collapse of the socialist system.

The model of the socialist plan economy has been formulated as an efficient and alternative method to the capitalism and market economy. This plan was created by the radical intellectuals (economists and other social scientists), revolutionaries, workers’ movement leaders and ideologues of the communist state through the history. After few years of practice, it turned out that the project was defective and the whole structure had serious malfunctions from the beginning.

Course Goals
The goal of the course is to help understand the history of communist economies and societies by exploring a long detour in the history of universal economic thought, the rise and fall of communist economics. Because the economic concepts will be discussed in the context of both communist history and (Western) economic theory, the students may develop a variety of skills in multi-disciplinary research on intellectual history. We will read and discuss a few (partly forgotten) classic texts written by communist political economists, their non-communist critics and historical analysts.

Grade Distribution:
The breakdown for the course is as follows:
- Class Participation (including attendance) 20%
- 3 review papers (week 5/week10/week15) @20 = 60%
- 1 classroom project @ 20%

Students will do a classroom project during the semester. Classroom projects (depending on enrollment) will be presented in class. One project will be on Case Study of Soviet-type Systems (classical or reform) in one of the socialist countries between 1945-1990.

Make-up Exam/Presentation Policy: Students who have been granted an excused absence and miss a scheduled examination (because of illness, mandatory religious obligations, or other unavoidable circumstances), must rescheduled the make-up examination/presentation and take it within 72 hours of the original date. Failure to provide adequate notice may result in an unexcused absence.

Grading Scale:
A = 94-100%
A- = 90-93%
B+ = 87-89%
B = 83-86%
B- = 80-82%
C+ = 77-79%
C = 73-76%
C- = 70-72%
D+ = 67-69%
D = 66-63
D- = 60-62
E = 59% and below

Participation/Attendance

- A good class participation grade depends on regular attendance and active participation in discussions and mini projects. Please come to class prepared! This means that you have read all the assigned materials and are prepared to answer the relevant study questions posted on the course website.
- **How to earn a high mark:** ask informed questions and make informed, substantive comment that demonstrate your understanding of the required readings. Your weekly performance in class discussion will be evaluated in the following way:
  - 0 = absent, did not speak in class that day or comments showed that you did not prepared for the class (did not watch visual materials, did not read the required reading)
  - 1 = participated in discussion in a meaningful way (understood the readings and could ask informed questions)
  - 2 = excellent performance (sophisticated analysis of readings, made connections between readings, added information/theory form outside of readings)
- **Unexcused absence** (for example: when you don’t notify the course instruction via email) will count as two points. Tardy arrival or leaving the class before class is dismissed, except on break, will count as one point. Grade penalties will be imposed proportional to the excess over five points.
- Students are also required to visit one office hour during the semester (preferably between week 4 and week 10) and talk to the course instructor about his/her progress.
- If you miss class for medical reasons, religious holidays, or for any other reason you consider valid, notify your instructor in advance (when possible). Be prepared to provide written documentation to explain your absence. These absences might be excused, and therefore would not affect your grade.

Absences:
- 1-3 credit hours absences no effect on your grade
- 4-10 credit hours absences your grade will be lowered one “notch” (from an A to an A-, for example) for each unexcused absence
- 11-15 credit hours absences your participation grade will be an E
- 15 credit hours absences or more you will receive a failing grade (E) in the course

E-mail Policy
University of Florida requires that you use your UF GatorLink account for university (and class) related email communication. Please see [http://www.it.ufl.edu/policies/#email](http://www.it.ufl.edu/policies/#email) to read more on this policy.

Auditors
Auditors are requested to complete assignments and prepare for class as if they were registered as regular students. If an auditor does not fulfill these requirements, he/she will be asked to withdraw from the course.
